

## Individual Court Programs

There are approximately 53 Court Alcohol and Drug Programs within Indiana. A list of these programs is available from the Indiana Judicial Center. These programs are governed by statute (IC 12-23-14) and by Rules of the Judicial Conference of Indiana.

Programs may be one of three types:

1. Free-standing (reporting directly to the judge)
2. Probation-based (operated by the probation department)
3. Contract (operated by a contractor)

A Supervising Judge of a program has a Program Director and a staff to provide authorized services for court offender clients. Programs are authorized to provide the following services:

1. Court Intake and Orientation
2. Substance Abuse Assessment
3. Substance Abuse Education
4. Referral to Substance Abuse Counseling and Treatment
5. Case Management and Monitoring
6. Client Transfer and Monitoring
7. Alcohol and Drug Testing

Program Staff are trained, certified professionals, who specialize in assisting substance abuse offenders. Fees for program services vary from program to program, but as of July 1, 2001, these fees **may not exceed \$ 400.00** per client.

The Indiana Judicial Center, Court Alcohol and Drug Program provides oversight, certification, training, and support of these programs.
